

- Time-release system for safe and effective rust removal
- Gelled formula keeps product in contact with rust spot
- Safe for use on carpet and most upholstery fabrics

Specialty Spotting, Cleaning Solution

GRAB Rust Remover

Safe and Effective Rust Spot Remover

Ready to use
Commercial Grade
For Professional Use Only
Read All Instructions and Precautions Before Using

How To Use:

Ready to use - do not dilute. Shake gently before using. Pre-test on carpet or fabric for colorfastness in an inconspicuous place.

1. Apply GRAB® Rust Remover directly to the rust spot. Avoid over-application.
2. Allow 10-20 minutes of contact time. Agitate gently during dwell time with a brush or scraper (do not use fingers).
3. Rinse with GRAB® Charge Away or other higher pH cleaner. Extract with fresh water. Repeat steps 1-3 if necessary. Groom carpet or fabric to align fibers.

Note: Old or large rust spots will require longer contact time than recent rust spots. Gentle agitation speeds rust spot removal.

pH:1.5
